TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Responsive UI/UX Design

Backend: Node.js, Django, Flask, REST API Development

Databases: MySQL, MongoDB, PostgreSQL, SQL

Languages: Python, C, C++

ML / Data: Pandas, NumPy, Scikit-learn, TensorFlow, Matplotlib, EDA, Feature Engineering

Tools & Platforms: Git, GitHub, VS Code, SEO Optimization, Performance Tuning

EXPERIENCE

Data Analyst Intern — Celebal Technologies

June 2024 – Aug 2024

- ▶ Built and optimized data pipelines using Python, reducing model training time by 20%
- ▶ Improved predictive model accuracy by 10% through feature engineering and preprocessing
- ▶ Delivered data-driven insights achieving 95% precision, supporting business decision-making
- ▶ Collaborated with a cross-functional team of 5 data scientists to hit project milestones on time

Research Intern — Jadavpur University

Aug 2023 – Dec 2023

- ▶ Developed GAN-based deep learning models for image enhancement and transformation
- ▶ Processed 500+ images to improve model accuracy and generalization performance
- ▶ Applied advanced image processing techniques in Python and OpenCV

PROJECTS

Responsive Web Portfolio — Personal Website

- ▶ Designed and built a fully responsive multi-page portfolio using HTML5, CSS3, and JavaScript
- ▶ Implemented interactive UI components and smooth animations for improved user experience
- ▶ Optimized for SEO and cross-browser performance, achieving fast load times

Breast Cancer Detection (Deep Learning) [\[GitHub\]](#)

- ▶ Built a deep learning model trained on 100k+ images achieving 99% classification accuracy
- ▶ Deployed with a Flask REST API backend and a clean frontend interface for result visualization
- ▶ Applied data preprocessing, feature extraction, and TensorFlow-based model optimization

Number Plate & Face Recognition System

- ▶ Developed a real-time detection system using Python, OpenCV, and TensorFlow
- ▶ Integrated with a MySQL database for logging and retrieval of recognized entries
- ▶ Achieved 95% accuracy for both number plate and face recognition tasks

Customer Churn Prediction Dashboard

- ▶ Built an 84% accuracy predictive model with a dynamic web dashboard for business insights
- ▶ Performed EDA, feature engineering, and data preprocessing on large customer datasets

EDUCATION

M.Tech, Communication & Signal Processing

2025 – 2027

IIST Shibpur

B.Tech, Computer Science and Engineering

2021 – 2025

Techno India University | CGPA: 7.5

ACHIEVEMENTS

- ▶ Qualified GATE 2025 (Data Science & AI)
- ▶ Ranked 139 / 2000+ in Amazon ML Challenge 2024
- ▶ Participated in Kavach 2023 — National Cybersecurity Hackathon

CERTIFICATIONS

- ▶ Machine Learning — Andrew Ng, Stanford University
- ▶ Exploratory Data Analysis for Machine Learning — IBM
- ▶ IoT with Machine Learning — IIT Kharagpur
